

Do a Little, Change a Lot: Tips for Encouraging Sustainability in the Workplace

Save energy!

Automate your systems to save power

- Buy smart power strips ([this buying guide](#) can help)
- Turn on energy-saving mode on your computer

Consider switching to Green web hosting

- Learn more [here](#)

Turn AC up & heater down 2°

- You'll barely feel the difference but Mother Earth will!

Think before you throw away!

- Can't part with your Keurig? Use [this service](#) that recycles K-cups for you or buy [compostable cups](#) instead
- Start a compost bin in your office

Snack sustainably!

- Cut down on individually wrapped snacks / drinks by buying in bulk
- Encourage employees to use reusable containers for their snacks & lunches
- Tell employees to skip the straw at Starbucks & provide reusable straws in the office instead

Shop smart!

Buy recycled paper products and other eco-friendly supplies

- You can find post-its, flip charts, napkins, paper towels, & printer paper made from recycled materials

Reduce Carbon Footprint!

- Reserve premiere parking spots for electric vehicles & install EV chargers
- Encourage employees to work from home once a week (save gas!)

Get your team involved!

Create a Sustainability Team

A passionate group of people who can take the lead on implementing sustainable workplace practices like:

- Coordinating a sustainable employee-of-the-month contest
- Creating a digital green guide for your office & home
- Putting up signs to remind employees to Think Green
